EXPERT TIPS

Print Files: Once you are ready to get your book published and distributed, we need one PDF of the text. If there are no bleeds on the pages, we need a PDF of the text that is either set up as the exact page size or centered on the page with crop marks. If there are bleeds on the text pages, please add crop marks. The PDF should be set up as a continuous single page PDF. Please allow 1/4" for punching and binding.

We also require a PDF of the cover. You can find a template for your spiral book [here](#).

Tabs can be added to spiral bound books. All you need to do is include the tab titles and placement in your print specification document when you upload your files. You do not need to include the tabs, just the tab titles. NOTE: Tabs cannot be inserted before an even numbered page if the document is printed two-sided. For example, page 2 is printed on the back of page 1 so we can't insert a tab before page 2.

If you include tabs in your spiral bound book, we recommend that you create the covers large enough to extend over the tabs. If the page size of your spiral bound book is 6x9, the tabs will be 6.5x9 and we recommend that the covers also be 6.5x9.

Book Formatting: Vervante offers book formatting so if you have your content ready but it is in MSWord, we would be happy to help with formatting, headers, footers, pagination, table of contents, etc. You can find more information [here](#).

We also offer beautiful book cover designs. If you have an idea of what you would like for your cover, or maybe you need guidance on the cover, just let our talented graphic design team know how we can help you. You can find more information [here](#).
