

BUSINESS CARD USB FLASH DRIVES

A unique presentation your audience will love

Turn valuable USB Flash Drives into memorable products with this unique presentation.

The packaging of an item can say a thousand words about the content before it is even opened. Take something popular, like a USB Flash Drive, and give it a unique, colorful new spin like this business-card style, and you've got something that becomes an instant favorite from the moment your audience sees it.

Whether you send them in the mail, use them as promotional items, give them away at events, or provide them as part of other products, programs

or services, Business Card Flash Drives offer valuable opportunities for brand and value recognition that shouldn't be overlooked. A customer favorite and super unique, business card-sized flash drives provide the ability to store and transport files with ease. These super-thin flash drives come in a variety of storage sizes (2, 4, 8, 16, 32 and 64 GB) and are easy to fit in mailers, purses, wallets, pockets, or with books or information products. And full color edge-to-edge printing capability means you've got lots of valuable space to share your logo or message.

VERVANTE EXPERT GUIDE
