

Inventory Management & Fulfillment Services

by Vervante

At Vervante, we offer streamlined order fulfillment services to simplify your supply chain management. From the moment a customer places an order to its delivery, including managing returns, we ensure a seamless process. We offer these services for products we produce and other products such as apparel, supplements, branded marketing materials, office and stationary supplies, etc.

Seamless Integration With Any Shopping Cart

By **linking** your online e-commerce shopping cart with our fulfillment portal, you and your customers have enhanced **transparency** and efficiency. We do this by:

- Seamlessly process orders
- Handle packaging and shipping
- Provide automatic shipping notifications

Receiving Your Products

When it comes to receiving your products, you have the flexibility to send them from your production facility or home, either **pre-packed** or for us to handle the packing. Upon receiving your items at our warehouse, we meticulously **sort** and **store** them, ensuring faster processing and greater **control** over inventory.

"I had no idea there were services like this available. No more wasted time doing my own fulfillment and inventory management. I thought only large companies used fulfillment services but Vervante offers this service for small, medium and large companies."

Order Processing

Every order placed in your shop **triggers** a notification for us to prepare and ship the goods promptly. Our integration with your shopping cart ensures a **smooth flow** of order details into our fulfillment portal, simplifying the process for you. Additionally, your customers receive **shipment details** automatically, allowing them to track their orders with ease.

Effective Inventory Management

Every piece of your inventory is managed with **care**, catering to **all types** of inventory sizes, types, and customer requirements. So whether you are a **small start-up** to **large** retailer with multiple outlets, we've got it handled.

We have regular reviews of our warehouse and organization to ensure the following:

- Optimal Resource Utilization
- Efficient Distribution
- Excellent Fulfillment
- Tailored Solutions

Real-Time Inventory Management Reports

You'll have access to real-time online inventory **reports**, providing you with up-to-date insight into your stock levels and inventory movements. Our system generates reorder **notifications** based on your predefined threshold alerting you when it's time to replenish your stock. You'll receive receipt notifications when your products arrive at our warehouse.

"I saved hours of ad hoc fulfillment by using Vervante. Now I have more time to invest in other parts of my business and life!"

With Vervante's seamless integration and comprehensive features, we can effectively manage your inventory and streamline your order fulfillment process, all while providing exceptional service to your customers.
